Chipping: Number of Piles: _____ Size of Piles: W _____ (x) L _____ (x) H _____

Where is Material? Road () Driveway () Other _____ Acres _____

How many hours did it take to prepare materials for chipping? _____

Do you want the chips? Yes ___ No ___ Pile ___ Broadcast ___

Where _____

- Brush, tree limbs and trees must be smaller than 6 inches in diameter and no longer than 12 feet.
- Piles cannot exceed 5 feet in height and must be stacked neatly
- Material must be stacked adjacent to roads and accessible to our contractor's equipment without having to be moved. All cut ends facing the road.
- Material must be free of rocks, dirt, berry vines, poison oak, oleander, tree stumps or construction materials of any type.
- Bulldozed piles or machine stacked piles cannot be processed. Piles cross stacked or stacked too densely or compacted will not be chipped.
- Property Address must be clearly visible, where piles are located.
- Material must be stacked so that traffic is not impacted and crews can work safely.
- Please allow for safe ingress and egress when setting up your piles.

Applicant must send in the South Lake Fire Safe Council Annual Membership Application Form and a payment of \$30.00, for the year, with your first chipping. Subsequent requests for chipping during the same year require new request for chipping form and right of entry form. Mail Forms to P. O. Box 1773, Middletown, CA 95461. Donations appreciated.

Please understand that SLFSC and Timberline Land Management intend to chip your piles at the promised date and time. However, schedules may change due to weather, fires, or unforeseen events and the chipping date may be delayed by a day or two or rescheduled to the following month. We will keep you informed of the changes and we ask for your patience in this matter.

I have read and agree to the above. (Signature) _____
